<sup>4</sup> Open University of the Netherlands

<sup>5</sup> Katholieke Universiteit Leuven

## ICOPER objectives

### Outcome-based learning

- Analyse and facilitate the adoption of standards and specifications
- Make learning resources accessible
- Validate standards and specifications and condense them into the ICOPER Reference Model (IRM).

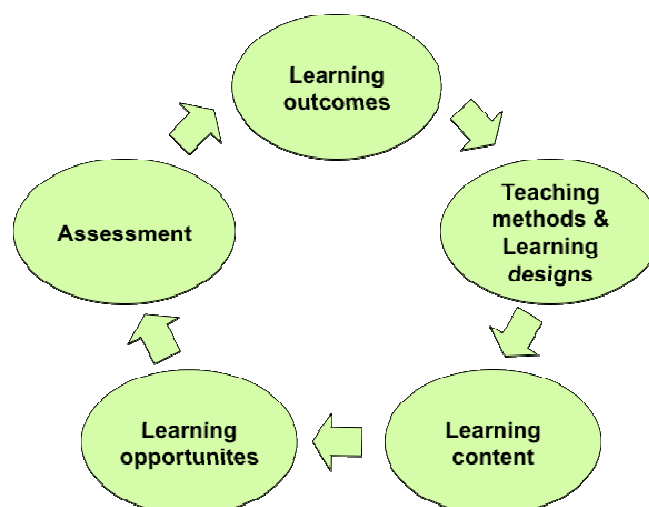

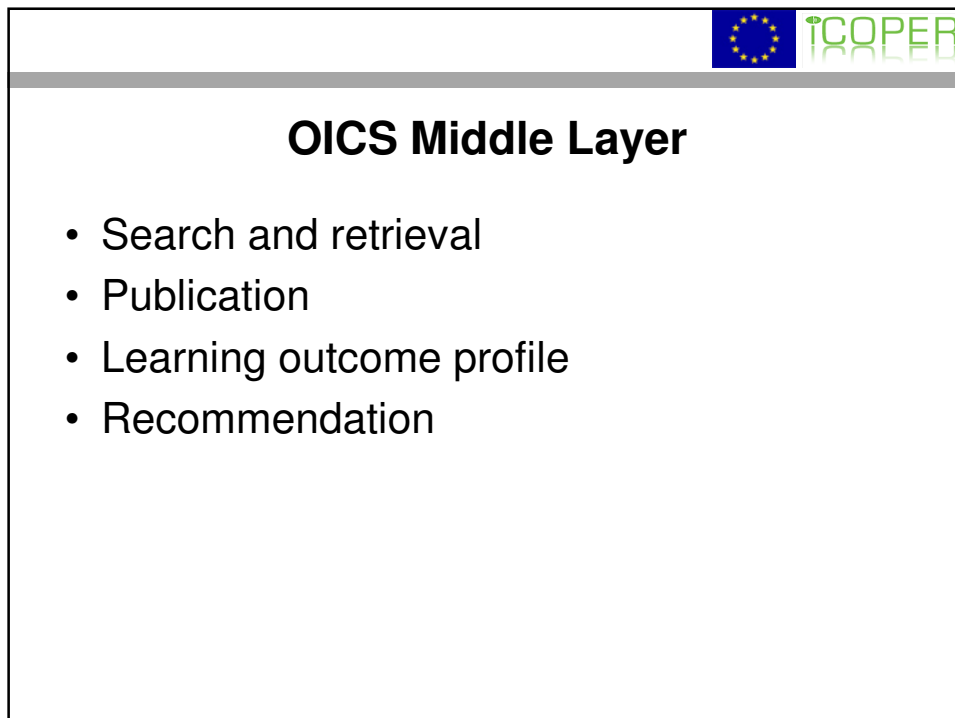

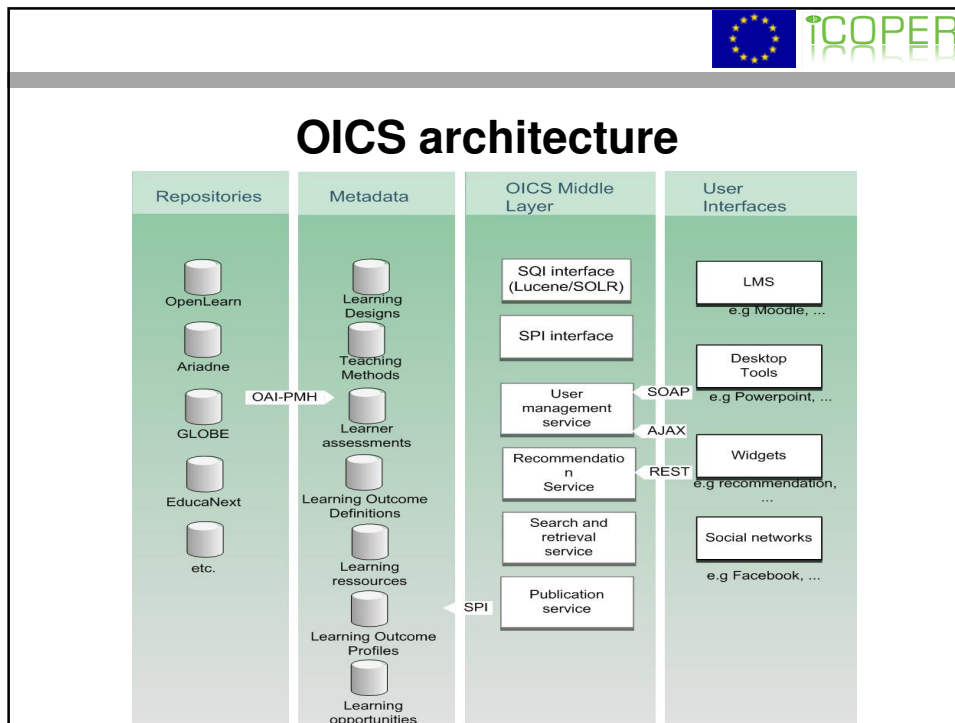

## Open ICOPER Content Space

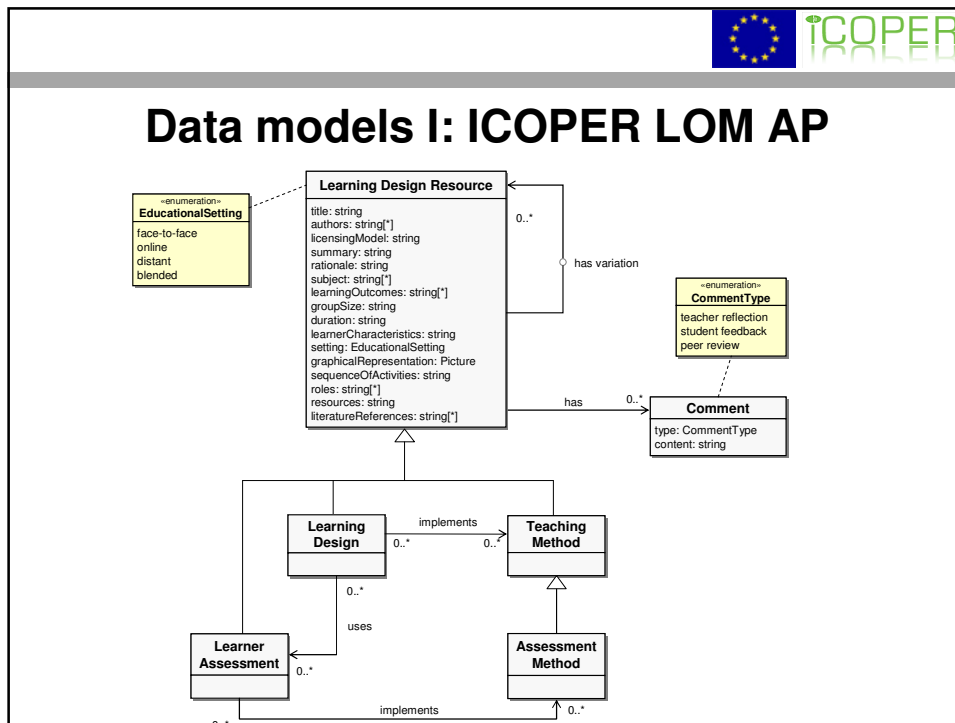

- umbrella combining a set of specialized interconnected repositories, content and tools, as a test bed for the specifications and standards that become part of the ICOPER Reference Model (IRM).

## Key processes in outcome-based education

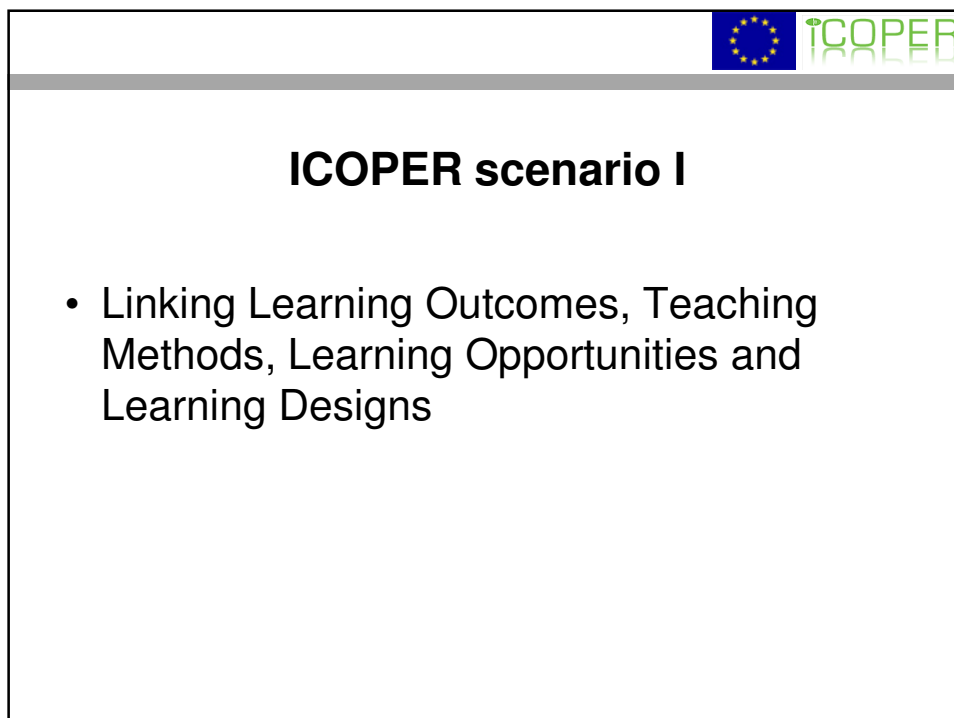

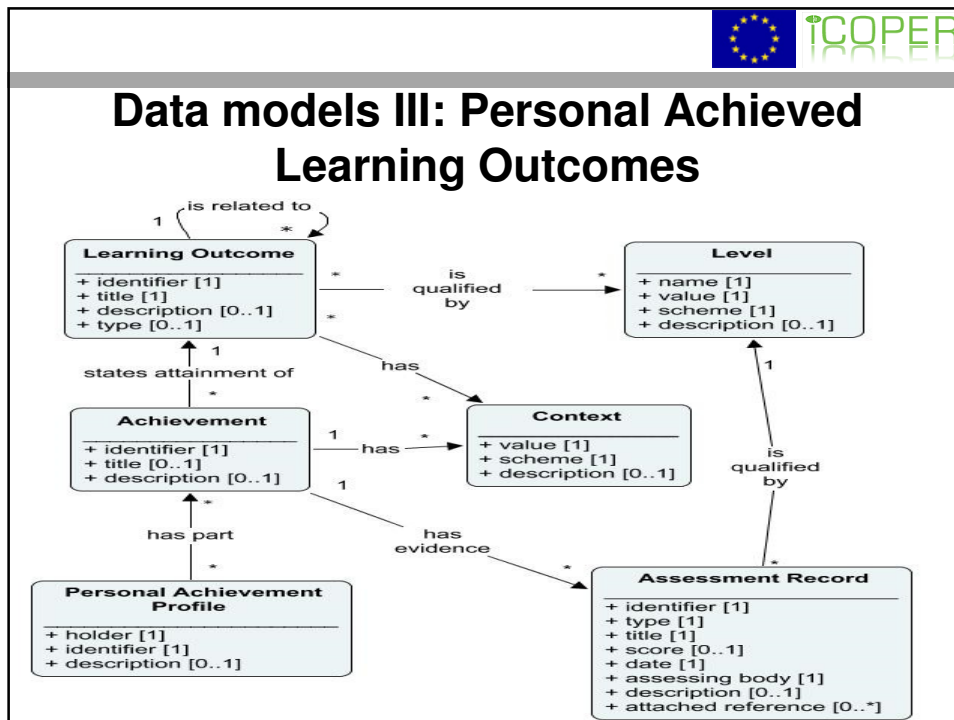

The diagram illustrates the ICOPER LOM AP data model for learning outcome definitions. It features a table with the following structure:

Name	Data type
Identifier	CharString
Title	LangString
Description	LangString
Type	Vocab (knowledge, skill, competence)

## ICOPER scenario II

### Storing learning outcome definitions

### Editing Teaching Methods and Learning Design: OpenGLM

**Specify learning outcomes, prerequisites, and the subject classifications of the Learning Design**

Learning Outcomes | Prerequisites | Subject Classifications

Add learning outcomes to this learning design. Start by clicking "Add" at the bottom.

	Resource: <b>writing skills</b> [LOD] Category: Pre-defined GLM Resources > Learning Objectives
	Resource: <b>careful interpretation</b> [LOD] Category: Pre-defined GLM Resources > Learning Objectives
	Resource: <b>analytical techniques</b> [LOD] Category: Pre-defined GLM Resources > Learning Objectives
	Resource: <b>science communication</b> [LOD] Category: Pre-defined GLM Resources > Learning Objectives

## ICOPER scenario IV OICS Roundtrip Authoring Re-use
